OBJECTIVE

To secure a challenging position in a reputed company where i can apply my knowledge of problem solving skill and web development while continuously learning and contributing to real world project.

EDUCATION

United College Of Engineering And Research,Prayagraj.	2023-27
Bachelor of Technology, Computer Science Engineering.	CGPA: 7.4
Girls' High School	2023
ISC — (Class:XII), Uttar Pradesh	Percentage: 72.0
Girls' High School	2021
ICSE — (Class:X), Uttar Pradesh	Percentage: 80.0

TECHNICAL SKILLS AND INTERESTS

Languages:	Java, Python, SQL, HTML, CSS
Developer Tools:	Visual Studio Code, Git, Github
Course Work:	DBMS, OS, Networking, Web Technology

EXPERIENCE

IBM	Internship-August 7 2025
• Learned fundamental concepts of Artificial Intelligence • Gained exposure to basic AI/ML workflows and applications	

PROJECTS

1. Salary Prediction using Ensemble Learning	Aug 2025
• Built a salary prediction model using ensemble methods (Random Forest, Gradient Boosting) to improve accuracy • Performed data preprocessing, feature selection, and model evaluation, achieving better performance than individual models.	
2. Fake News Generator and Detector	Aug 2025
• Developed an NLP-based system to generate and detect fake news using machine learning techniques. • Implemented text analysis and classification to identify misleading content with improved accuracy.	
3. Currency Converter	2023
• Developed a currency converter application using real-time exchange rate APIs. • Designed a user-friendly interface and implemented efficient conversion logic for seamless user experience.	

CERTIFICATIONS AND ACHIEVEMENTS

• JAVA Programming Certification-Learned core Java concepts including OOPs.	2023
• Virtual Internship by IBM	2025
• Python Programming Certification- GUVI (HCL)	2025
• Get Started with Databricks for Generative AI Databricks — Simplilearn SkillUp	2025
• Received Letter of Appreciation from UCER for outstanding performance	2026
